HOW TO SHAKE A GOOD COIN LOOSE

PNG/CSNS/HA IN WI

The Market in Depth

Dealers report that it is difficult to acquire the "good stuff." The kinds of coins, it is pointed out, where they can *"stretch" a little bit*, secure in the knowledge that a client will be very happy to acquire such a coin for his collection. One might wonder whether this often-reported sentiment reflects dealer posturing. Alternatively, is there in fact a supply side crisis? If such a crisis exists, what would encourage "strong hands" to release their grip? Intuitively, we all know the answer, and that is to offer more money to jar the coins loose. Then there arises another rub. It is one thing to *stretch a little bit* at auction for a special coin, or within the context of a private treaty purchase where the material offered for sale has been examined and reviewed. It is quite another to place visible Bids at higher and higher levels for select coins; never quite knowing what is going to arrive in the mail or walk up to the table at a show. This may explain, at least in part, the motivation behind PCGS Secure Plus, CAC, and in the not-too-distant future NGC Plus. Consensus on PCGS Plus at the moment is "wait and see." There are simply not enough coins on the market from a wide enough swatch of the various segments of the market to gauge the situation. Gold is volatile of late, having closed above $1,160 last week, and now at $1,135 per ounce. Market-makers are keeping the premiums offered on generic Double Eagles up to and including MS65 examples much tighter than was the case in the final quarter of 2009. Counterfeits continue to rear their ugly head. We are not referring to fake Pandas, or altered 1916D Mercury Dimes, nor struck and "antiqued" Type coins or Chinese Trade Dollars. We are referring to "sandwich" coins—the splicing of two authentic, different date/mintmark Morgan Dollars "sandwiched" to make one rare date/mintmark Morgan Dollar. These fakes are expertly sealed, with precision, to the proper edge width, then stuffed into a fraudulent, though well-crafted PCGS slab with "proper" bar codes. If anything about a deal doesn't sit right – even though you really are not certain the coin is a counterfeit – let it go. This latest report regarding a "sandwich" slab suggested that the present owner had acquired it on Craigslist.

The CSNS show opens to the public April 30. PNG set-up is on the 27th. Host auctioneer Heritage is set to hold their sale April 28 through May 2. Several of the many highlights are included herein.

This Week's Market

CENTS THRU HALVES: A number of Nickel, Dime and Quarter rolls dated 1982 and 1983 are higher in order to meet the ever-increasing demand for homemade Mint Sets. BU State Quarter Rolls are witnessing widespread declines from Delaware to the Mariana Islands, a clear signal that this program is well past its peak. The first National State Park Quarter—Hot Springs, Arkansas, was released today, and many are less optimistic about the success of this program.

MERCURY DIMES: Support is sparse at best, in some cases absent altogether, and hopes of a resurgence of interest as examples of PQ coins infiltrate the market under the guise of + grades have yet to materialize. The upcoming Heritage sale boasts well over 100 lots of Mercs including a 1916D PCGS AG3 and a 1942 graded PR69 by NGC.

WALKING LIBERTY HALVES: Widespread support remains present for the short-set in MS63 and MS64. Over 300 lots of Walkers, among them an NGC 1921S and a PCGS 1921, both graded MS63 and CAC approved, will be offered in Milwaukee.

DOLLARS: 1885S Morgans are needed in MS66 and are now Bid $6,500, which represents a $1,000 advance. Pressure on Circ Morgan and Peace Dollars persists as five or more dealers look to acquire quantities at Bid or very near for coins in the VG to XF range. An ongoing offer to sell 2001S Sacagawea Dollar rolls at a substantial discount necessitates an adjustment to Bid, which is now at $25 per coin.

PROOF SETS AND MINT SETS: A mix of plus signs and minus signs is perhaps reflecting dealers' shifting needs. One week it may be the need to acquire quantities of Prestige Sets or Premier Silver Sets to satisfy stocking requirements at the inception of a promotion whether on TV, or by one of the major mail-order houses. The closing out of such a promotion might prompt the quick liquidation of leftover stock at below Bid, of course, resulting in minus signs. This phenomenon carries over to any market segment where such dynamics exist.

COMMEMORATIVES: Classic Silver issues (along with Morgan Dollars) are quintessential market fodder for discussions about how to value coins; from low-end for the grade to "solid-for-the-grade", to above average for the grade (PQ) and for those examples that exhibit "one-of-a-kind" aesthetics, like rainbow or tab toning, or "old-fashioned" blast white, where examples can bring well over Bid. Some observers suggest that, for this series, even the presence of a Plus grade or CAC label will not accurately gauge the value of "blow away high quality" specimens. Gold Commems are in positive territory yet again in MS63 and MS64.

TYPE: A nice cluster of advances hitting collector friendly Types suggests that the "small" guys, those that may have been chased away at the onset of the economic crisis, are coming back to the fold. A couple of Silver Proof Type Half Dollars advance - namely Barbers and Walkers in PR64 - perhaps under the same impetus as the Mint State Types.

GOLD: Spot is off some $25 from last week, and Bids are off by that much or more for the generic material. A handful of more esoteric items inch up; perhaps in response to some Gold bugs being converted into collectors/investors.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium over Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCG5, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "g[illegible]m r[illegible]" oft[illegible]n bri[illegible] [illegible]re. In the Jefferson series, some of the rolls in the late 50's tend to be dark– these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mer[illegible]ury [illegible] "g[illegible] full bands" rolls are worth more than listed prices particularly the pre 1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

Fox Business Network

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

Jim Kingsland,
Editor

Coin Values, August 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

Mark Ferguson

The Coin Dealer Newsletter

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

Ira and Larry Goldberg Auctioneers

"It is very simple, CAC coins bring premiums!"

Larry Goldberg

Stack's

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. David Bowers,
Chairman

Bowers and Merena Auctions

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

Steve Deeds,
President

Heritage Auction Galleries

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

Todd Imhof,
Executive Vice President

DLRC Auctions

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade Greater confidence equal more bids, plain and simple."

John Feigenbaum,
President

Single copy price $4.00 Vol. XLVIII No. 18 April 30, 2010 *...a Friday morning report on the Coin Market*

HOPE SPRINGS ETERNAL
WANTLISTS GOING UNFILLED

The Market in Depth

Dealers and hobbyists converge on Milwaukee this week for this year's CSNS where the forecast is a pleasant mid-sixties on Wednesday and Thursday, and a downright balmy 72 degrees projected for Friday. Spring is here, and as the saying goes, "Hope Springs Eternal." Have we gone soft, throwing about nice little sayings? Hardly. According to economists, perhaps the worst of the Great Recession is behind us. Further, the most recent consumer confidence index hit a peak, say analysts, that dates back to September 2008 – the month that Lehman Brothers collapsed, and the financial services sector went with it. So maybe now is the time for the hobby to embrace another growth phase. At the entry level, there is a plethora of US Mint products that are so elegantly and efficiently marketed by the TV entrepreneurs. The budding economic recovery bodes well for the collector-friendly clientele – the guy that makes purchases in the $250 to few thousand dollar range. At the higher end of the spectrum, where the money, quite frankly, has never been in short supply, some inefficicncies in the marketplace – namely a pricing structure for above average quality for the grade coins – has resulted in somewhat of a stalemate. The great refrain from a multitude of dealers is that there is a shortage of worthwhile material coming to market for acquisition and subsequent resale. Dealers claim they are sitting on multi-million dollar wantlists that are going unfilled as a result of the situation. Clearly those with the "right" coins are not going to sell them until a baseline has been established for above average for the grade coins, a structure that for the most part has been lacking. The remedy as provided by CAC, PCGS Plus, and the soon-to-be NGC PQ product may very well establish, over time, the firm bedrock upon which the strong hands are waiting.

New reports of additional "sandwich" counterfeits have come from the Old Mint show in San Francisco held last week. Dealers fear that this problem will soon become widespread, having been seen in both PCGS and NGC holders, and not only via craigslist. These fakes are thought to be made in the US by a group of counterfeiters, led by someone with significant industry knowledge. At least two such coins will be available for educational inspection at the upcoming CSNS show. Dealers are urged to take advantage of this opportunity to become more aware of what the fakes look like. This knowledge may very well thwart an attempted sale if such a coin walks into a dealer's shop or show. Thefts, another hobby related problem, continue with a most recent report coming out of San Diego, where a dealer's travel inventory was stolen from the motel room safe. The EAC wrapped up their auction in Annapolis, MD April 24, totaling over $273K, and we have listed a few highlights herein.

EAC Sale			Price Realized
1794	Half Cent, C1a	VF20	$2,310
1811	Half Cent, Late Die State	G6	$6,875
1797	Large Cent, S136	XF45	$8,525
1798	Large Cent, S179	XF45	$5,775
1843	Large Cent, Petite, '44 Rev	MS65RB	$1,870

This Week's Market

MERCURY DIMES: Numerous issues wing their way higher as one dedicated dealer is determined to seek out select coins for inventory, raising the stakes to procure the quality he wants to offer his customers. The 1921 and 1921D, the "second keys", are among those issues targeted. The sale of a 1919D in MS66FB that snagged $217K back in 2000, in retrospect, may have been a market peak for this segment.

WALKING LIBERTY HALVES: Bid support persists for the short-set in MS63 and MS64, while Gem examples are off slightly. The presence of supporting Bids for the very important (and expensive) issues beginning with 1921 is encouraging, and any more demand could result in a jump-start for this series. The 1936S inches higher in MS65.

DOLLARS: Quantities of Circ Morgan Dollars are sought by upwards of five dealers, market-makers that is, while Silver Spot closed above $18 an ounce for the better part of a week. Some average to above average quality material that sold at a discount accounts for the handful of minus signs sprinkled over the chart. 1927S Peace Dollars climb to a Bid of $1,000 for MS64 coins. 1973S Brown Ikes are Bid $34 once again, and must be "white" to command this money. Generic CC Dollars make a move in Fine, and are now Bid $80.

PROOF SETS AND MINT SETS: What's hot one week is possibly "bargain bin" fodder the next. This is perhaps the new paradigm in the digital TV age, and the potential for mass marketing of certain types of numismatic material. A raft of Prestige Proof Sets follow the rapids down river as a large quantity are offered for less than previous published Bid. Seems the TV guys have moseyed from Prestige to Premier Silver– just like that. Mint Sets remain solid with only a single decline for the 1978 issue.

COMMEMORATIVES: Gold Commems are up again this week, with the primary target being the 1915S $2½ Pan-Pac. Note that Bid/Ask is extremely tight for some of these issues in an effort to reflect the increase to Bid while remaining faithful on the Ask side, where that Ask is representative of an actual offer to sell. An 1892 Columbian Half in Proof counts as "good stuff." A strictly original, attractively toned example graded PCGS PR64 sold over the wire (and very quickly according to the dealer) for $10,500. Classic Silver Commems are decidedly quiet, with many buyers available for most issues at current levels; the advancing Bid for Gem Monroes being the only talking point.

TYPE: At least one dealer is currently looking for up to 100 Bust Half Dimes, Bust Dimes and Bust Quarters at or near Bid in VG. The esoteric No Drapery Liberty Seated Quarter nudges its way to $3,750 for Choice Unc specimens.

GOLD: Decidedly mixed with no apparent rhyme or reason. $20 Saints are down in VF through MS60 and up in MS63 and MS64. TIII $20 Libs are off in AU58, higher in MS62-MS63, and down in MS64-65. One dealer is looking for some 30 $10 Indians in Gem which must be solid for the grade, minor spotting not a problem. Overall, perhaps the plus signs lean toward what most of us would call "numismatic" material as opposed to generic.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the exact at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be sensitive to them by [illegible] which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

MILWAUKEE AUCTION HOPS OVER $17 MILLION

CAC COIN LANDS RIGHT ON THE MONEY

The Market in Depth

Dealers wrapped up festivities this past Saturday at the CSNS show in Milwaukee. A majority of reports suggested a good show, though activity was a bit sluggish, especially in the beginning, for some. *Retailers* offered that the show did not live up to their pre-show expectations, with extra effort needed to make transactions happen. Those who are primarily *wholesalers* felt much better about the level of activity. A variety of reasons were put forth to explain both perspectives – as is always the case at a large convention style show, there are multiple perspectives, and multiple results from dealer to dealer. Some targeted the economy as the reason for lack of retail activity in their own experience. Some pointed to the venue itself. Debate regarding the extended PNG and set-up days, which delayed public attendance until Friday, was rather heated. And some dealers also reported having trouble finding the right coins. Much of the good stuff is believed by many to be in tight hands these days. In spite of these challenges, the show was generally a success, and worthwhile for both dealers and collectors.

Heritage conducted an auction that realized over $17 million in an eight-session sale that included a one-session, separate catalog affair, Platinum Night. The separate catalog boasted 404 lots spanning the range of US Coins. One offering, the 1853/4 Arrows and Rays Liberty Seated Quarter graded MS65 by PCGS, CAC approved, that realized $54,625 is perhaps an example of an emerging rarity. Never having received the publicity of the more romantic Carson City coinage, nevertheless it parallels in rarity, grade-for-grade, the rarest of the rare CC issues. Highlights of the sale are included herein. One other result from the sale might serve to illustrate how a third-tier of quality of certified coins can ultimately facilitate the trading of coins at all quality levels. This refers to coins that are approved by CAC or have received a "+" designation at PCGS under the PCGS Secure Plus tier of service. An 1884S Morgan Dollar graded MS63 by PCGS and CAC approved garnered $40,250. Bid is $24,900 in MS63 and $77,500 in MS64. Sight-unseen Bid is $40,000 for any PCGS MS64 example.

Gold and Silver remain extremely volatile as of late. As Gold climbed above $1,180, it has retreated to the $1,168 level just as quickly. Silver, which often mimics Gold, seemed well on its way to $19. This morning it was fighting to remain above $18 and in fact has slipped below to $17.82 an ounce.

This Week's Market

CENTS THRU HALVES: 2010D Dimes have finally hit the streets, with Bid now at $12.50. 2010 Nickels are still unavailable, and need to be taken from Mint Sets if wanted. Bullion sensitive Roosevelt Dime rolls are up in response to a higher Silver Spot. State Quarter rolls remain soft, though no declines are present this week.

MERCURY DIMES: Many issues continue to have buyers visible at current levels in MS64FB and MS65FB. Several of the better dates like the 1916D, 1918D and 1919D are suffering and have performed poorly at auction.

WALKING LIBERTY HALVES: Dealers are looking to acquire Choice Unc examples of some slightly better dates and Bid has been raised in order to flush some out. Maybe this series isn't as quiet as some feared. Recent results include a 1917 in NGC MS67 yielding $6,900, a 1920D in MS65 ensconced in an NGC holder realizing $12,075, and a 1921S in NGC MS63, CAC topping out at $29,900.

DOLLARS: Demand for Circ Morgan and Peace Dollars is nothing short of intense, though no one on the buy side is willing to raise the stakes, especially with the $1 drop in Silver Spot in less than one day. Examples of the 1879CC Morgan in MS64 advance to $7,750, and accounts for the only significant movement on the chart. Peace Dollars are visibly quiet, but the latter part of the series from the 1925S to the 1935S is well supported in MS64 and MS65.

PROOF SETS AND MINT SETS: Same 'ol, same 'ol – a large contingent of buyers, which when all totaled results in nearly everything from both major segments, Proof Sets and Mint Sets, is wanted in quantity, at or near Bid, the usual proviso that it has to be retail friendly, packaging intact and easy on the eyes. One dealer is offering 35% over Ask for the Proof Sets of 1971, 1975 and 1990, if, and only if, they are still in their original sealed boxes shipped from the Mint.

COMMEMORATIVES: Supporting Bids for MS65 and MS66 Classic Silver Commems dominate the landscape; nearly every issue is involved. How often coins are trading at these levels is a different story. Gold Commems are similarly well supported, though on select issues where they are not, discounted sales result in significant adjustments, like the case of the 1905 Lewis & Clark Gold Dollar, which suffers a decline to $13,500.

TYPE: Upward movement for a variety of Types marks this week's activity. From Choice Unc Classic Head Half Cents exhibiting full Mint Red bloom to the Barber Half Dollar and about a dozen listings in between, collector-friendly Type coins are targeted at higher levels. Circ Type takes a breather as dealers assess inventory needs heading into the Spring/Summer portion of the year. Vibrant support for Proof Type exists for material grading Choice, Very Choice and Gem.

GOLD: Up, up, and let's wait and see. The large number of plus signs is most welcome, perhaps more so is the fact that the increases reflect an increasing premium. Orders were accepted by the US Mint last week for Uncirculated 2010 American Gold Buffalo one ounce bullion coins from authorized distributors.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen** or raw, uncertified, but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen or heard by the Editors at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include coins dealers have graded themselves. Bids for raw coins may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the fielding adjustments of the high and low Bids and Asks which are higher or lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium over these prices for a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANAC5, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

GOLD BREAKS WORLD RECORD AT $1,220
SHOW SEASON IN FULL SWING

The Market in Depth

From its opening price on May 5th to one dramatic moment in time during the day, the Dow Jones Industrial Average was down 998 points, the single largest intraday drop in the history of the stock market. Upon closing, much of that precipitous decline was recovered. One can be *certain* that other markets are going to "feel" that activity, though they may react in different ways, none more so than the precious metals complex. Gold closed today at $1,220, which is a new world record high. Silver finally follows Gold's action, closing over $19 for the first time since early December of 2009, back when Gold was approaching its most recent all-time high, eclipsed only by today's close. Platinum, at $1,701, shows a 34% jump from this same period last year. Palladium hit $532, well over double its price from a year ago. One model of market behavior suggests that under the present conditions - generally speaking, a time where world markets are worsening - that the dollar should be stronger and Gold weaker. Indeed, the dollar closed at a 15 month high compared to the Euro last week, but Gold - to speak loosely - is not behaving "correctly". Perhaps the larger purchases of the metal in recent years by emerging economic powers like China and Russia account for the difference. Of course, safe-haven buying as a result of severe economic volatility here in the US and especially in Europe is the most popular explanation of Gold's current supercharged spike in value per ounce. Amidst all of this turmoil, a recap of the $17 million Heritage sale was notable for the absence of coins that performed poorly. A review of the CAC coins reveals that many realized prices well in advance of Bid, some stretched well into that grey area between two grade columns where the price difference from one grade to the next is dramatic.

Counterfeit coins are on the radar again, this time in the form of Ancients. Dealers in such material have acknowledged that these are very good fakes that could fool many experts. At least one dealer is so spooked that he is considering not purchasing any raw Ancients in the future.

With taxes out of the way, collectors can get back to collecting, and with that we note that there are national, regional, local and private shows in the near future. PCGS will have its Members Only Show in Las Vegas, May 12-15. This show may very well result in a dramatic increase in the amount of PCGS Secure Plus material available in the numismatic marketplace to be seen in future expos and auctions. TNA is on the horizon, May 14-16 in Fort Worth, TX, with an auction by Spinks-Smythe. The Whitman folks will host their first ever show in Nashville, May 20-22, along with an auction by Stack's. The hosts of the Nashville show have stated that while there has been extreme weather conditions and severe water damage in the area, the venues associated with this show are in good shape and ready to accommodate guests.

This Week's Market

MERCURY DIMES: Demand for key dates persists, in some instances for coins grading as low as About Good 3 and Good 4. Similarly, support exists for many of the better dates in MS64FB and MS65FB.

WALKING LIBERTY HALVES: Walkers continue to have a solid following with collectors. Many beginners target the twenty-piece short-set, and demand exists here in grades MS63-64. Veteran hobbyists often graduate to the longer sets with buyers present for select dates in Gem. Multiple dealers are looking for the 1942S graded MS67 by PCGS, and are now willing to pay $80,000 plus. The '41S is also needed in the same grade/service, with $27,500 being offered.

DOLLARS: Trade Dollars have enjoyed a surge in popularity and Bid increases have been recorded for most dates and grades G4 through AU50. Proof 65 examples are also wanted, with dealers currently paying at least $8,600 for problem-free specimens. Several Morgan Dollars are higher in Mint State including the 1893CC in MS60, Choice examples of the 1889CC, the 1887/6O in MS64 and finally Gem examples of the 1890CC. Better Peace Dollars are well supported in MS63 and higher, while generics remain strong in Circ grades.

PROOF SETS AND MINT SETS: This area of the market is extremely active with buyers and sellers consummating transactions at or near Bid, including large quantity lots. Prestige, Silver and Premier Silver Sets, as well as the American Legacy Proof Sets remain very popular. Silver Quarter Proof Sets are being offered near melt at a time when Silver is approaching a peak not seen since last December. Mint Sets remain strong with no discounted sales to report.

COMMEMORATIVES: Strong support persists for the Classical Silver and Gold series, especially in grades MS64 to MS66, though the occasional bargain can be located. A beautifully toned Lafayette in PCGS MS66 that realized $14,950 might be a bargain, but only if it meets the requirements of the potential customers - gorgeously toned or otherwise toned, if the customer wants blast white, this coin ain't gonna work. Modern Gold Commems are up as a result of a higher Gold Spot. Proof 2010 BSA Silver Dollars are still available from the US Mint, not so for the Uncs.

TYPE: Even though a few minus signs have been recorded for Proof and Uncirculated Type, both market segments remain strong with a number of buyers available for the majority of issues. Increases are found within Circulated Type, specifically with 3 Cent Silvers, Barber Halves, and Trade Dollars. Nearly all better date Barber Halves are higher in grades Fine through XF.

GOLD: It never hurts to have Gold Spot make a new world record - which it did just today when it closed at $1,220. Therefore, it is no surprise that Bid is up across-the-board. Keep in mind, however, that premiums are much slimmer than when Spot reached similar levels for a few days in December 2009. Demand has waned a bit for all sizes of the 2008 Proof Gold Buffaloes, resulting in minus signs.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be "certified" or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the exact at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strong enough to Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

GIANT RETAILERS BUYING GOLD FROM CUSTOMERS
TNA & VEGAS EXCEED EXPECTATIONS

The Market in Depth

Amidst an overwhelming amount of uncertainty and fragility in financial markets here and abroad, Gold set another world record on Friday, May 14th when it traded intra-day for nearly $1,250 an ounce. Activity, both buying and selling remains high and appears to be growing as a number of bullion dealers are once again out of product. This has caused premiums to escalate dramatically even as Spot drops. There has been a surge in Gold buying and refining start up operations over the past few years, and now the massive retailers are jumping in. Walmart, Sears and Kmart are now buying Gold and Silver from consumers.

Fresh coins are hot according to dealers at the PCGS Members Only show in Las Vegas. Collector priced coins through the six-figure range were selling quickly and easily. Both dealers and collectors were generally pleased with their grading results at the Vegas show. Quite a few + grades were awarded including a number of top pops. One such example is an 1865 Proof Cam Two Cent Piece PR66R+, with none grading higher. To date, this is the only coin within this series to receive a + grade. Since the service is new, and relatively few coins have been made, it will likely be quite some time before the novelty wears off and true market values are established . The show itself was characterized as the best and busiest Members Only show to date, with Gold's strength certainly playing a positive role.

Even with the bad weather, the TNA show, held May 14-16, was also deemed quite a success by many dealers, again, with plenty of help from Gold. Dealers reported being very busy, and attendance was surprisingly high. Retail sales were strong, but buyers had a tough time getting what they needed. Spink Smythe concluded a sale held in conjunction with TNA show that brought in a total of $806K. A 1904 $20 Liberty graded PR62 by NGC commanded $17,250.

Bowers & Merena extended the deadline on their May sale – an online, phone and fax sale – as the Bidding process was severely impacted by a disruption in telecommunications service around the facilities headquarters. Bidding closes May 19th at 3 pm PST. Next on the show circuit is the inaugural Whitman Nashville Expo, May 20-22, where Stack's will be hosting an auction May 21. One dealer at this show will have on display counterfeit US and Ancient coins for educational purposes. Another diagnostic on the counterfeit sandwich slabs coming from northern California has been reported. In addition to the sharp edge the barcode on genuine slabs is viewable from the reverse when held up to the light, not so with the fakes.

Next up, the Goldberg's are set to conduct their Pre-Long Beach auctions, including the Dan Holmes Collection of Middle Date Large Cents, Part II, Sunday, May 30, in Beverly Hills. The Long Beach Expo will be held June 2-5, and will feature an auction by Heritage.

This Week's Market

CENTS THRU HALVES: A higher Silver Spot has caused the bullion sensitive rolls to increase this week. '82P Nickels, Dimes and Quarters are also higher as these coins are used to compile homemade Mint Sets. Several dealers decided to dump one of the Kennedy keys, with the 1970D now Bid $200 per roll.

MERCURY DIMES: Different week, same story - select issues including some of the monster key dates are wanted at or near Bid in grades up to and including MS65FB. At the same time, there are many issues deserving of some attention that are going without.

WALKING LIBERTY HALVES: Gem examples of the 1917, '17S Obv, '17S Rev, '20D, '20S, '21 and '23S and '35S are wanted at or near Bid. BU short-sets are needed, and dealers are actively looking for them, and are willing to pay $600.

DOLLARS: Circs have been stretched to the limit with 5 or more buyers ready to take quantities at Bid. Numerous better date issues climb higher in the Mint State columns. 1934 and 1935 Peace Dollars move up again; 1934D examples graded VF are now Bid $20. At least one dealer is in desperate need of blast white PCGS MS67 Peace Dollars - 1921P thru 1925P and the same desperation is exhibited for the 1922S, '23S, '27S, '28, '35 and the '35S. Quick decisions are promised by the buyer on this sight-seen offer. Reports have crossed the wires that the Secret Service has begun looking into the rash of sandwich countfeit slabs that are flowing into hobby channels at what appears to be an alarming rate.

PROOF SETS AND MINT SETS: Mint Sets dated 1996 are being offered at $3.25 with the W Dime removed. Most Prestige and Premier Silver Proof Sets from 1984S on are once again higher. Only a single minus sign can be found within Mint Sets and the majority have buyers available from 1959 on.

COMMEMORATIVES: Offers to buy at or near Bid persist throughout the Silver Commem series in grades MS65 and MS66. Simultaneously, we must point out that retail sales continue to take place below Bid for coins that were without question solid for the grade. Why is this occurring? Classic Gold Commems remain strong with buyers paying Bid for most issues grading MS63 to MS66.

TYPE: The heart and soul of numismatics is alive, well, and hot. Auction results are littered with examples of coins in the $200 to $1,000 range like common date AU Liberty Seated Halves, Copper-Nickel Indian Head Cents, Proof Small Size Copper, and Seated material in the PR63-64 range, all realizing strong retail prices.

GOLD: Spot is off by $5 from our last report, which is what makes the overwhelming presence of advances so interesting. And many of these advances are quite substantial, especially in light of Gold falling nearly $35 an ounce in the last two sessions.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem [illegible]" In the Jefferson series, some of the rolls in the late 50's tend to be dark- these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury [illegible] bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. [illegible] rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

Single copy price $4.00 Vol. XLVIII No. 22 May 28, 2010 *. . .a Friday morning report on the Coin Market*

1794 DOLLAR SELLS FOR RECORD $7.85 MILLION
NGC PLUS READY AS PROMISED

The Market in Depth

Thought by some experts to be the first Silver Dollar ever struck at the US Mint, the sale of the Neil/Carter/Contursi 1794 Flowing Hair Silver Dollar for $7.85 million set a new world record price for a single coin. This eclipses the $7.59 million paid for the 1933 $20 Saint-Gaudens in July 2002. Graded SP66 by PCGS, the Specimen designation suggests something special about the coin to the graders, though its status as a Proof strike is not verifiable. This example also has a Silver plug, and is the only 1794 to exhibit that characteristic. Perhaps the most compelling argument that this is the first ever Silver Dollar struck comes from the fact that the die state of this coin and that of the unique Copper die trial 1794 Dollar are an exact match. A cataloger at Stack's who had both coins to examine at the time of the sale of the Carter Collection in January 1984 arrived at this conclusion. The coin was purchased by the Cardinal Collection Educational Foundation, a nonprofit organization, from Steve Contursi, President of Rare Coin Wholesalers. Greg Roberts of Spectrum brokered the deal.

NGC, having announced at the ANA show on March 25, that 60 days hence they would launch a "Plus" service similar to that which PCGS recently implemented, reports that the service is ready to go. Unlike PCGS, there is no new tier of service requiring an added fee. All Classic coins submitted will automatically be considered for the plus designation in grades 45 thru 68. NGC is still providing the Star service, and it is therefore possible to have a + and a ★ as part of the grade, both designations adding extra points to the set registry. Stack's pulled in $1.75 million at their recently concluded Nashville sale. A few of the many highlights are included herein. The first ever Nashville show hosted by Whitman received generally good reviews, and all were treated to a goodie bag, including country music CD/DVDs upon entry into the warm and dry facility. Dealers, especially on the wholesale end, were satisfied for the most part. Retail was described by some participants as a bit weaker than expected, possibly due to the tax rate of 9.25% on all sales.

Next on the circuit is the Goldberg's auction featuring the Dan Holmes Middle Date Large Cents, Part II, set for Sunday, May 30 in Beverly Hills, followed by their Pre-Long Beach auction, May 31. The Long Beach Expo commences with dealer setup on June 2. Twelve days following the conclusion of the expo, the circuit faithful will touch down in Baltimore, MD for the much anticipated event scheduled for June 17-20. Bowers & Merena is the host auctioneer, and they have announced a 3,500 lot sale of US coins, including a 1930S $20 Saint-Gaudens, graded MS65+ by PCGS.

This Week's Market

MERCURY DIMES: Blast white, lustrous examples of Ms. Winged Liberty remain in strong demand. Much of the attention is focused on material that exhibits Fully Split Bands in grades MS64FB and higher.

WALKING LIBERTY HALVES: This series continues to show signs of life. Common dates have advanced to $46 in MS64. In Gem, a trio of S-Mints within the short-set have climbed higher; with Bid for the 20-coin group now at $3,920. The AU column is in need of support; currently, in addition to the common date mint-marked fare, only the 1928S and 1933S garner visible interest at present Bid levels.

DOLLARS: Dealers have been on the move from one show to the next without a break. Nevertheless, specific needs have prompted fresh Bidding activity. Numerous issues in MS63 and MS64 have crept up in both the Morgan and Peace Dollar segments. Meanwhile, multiple dealers are paying Bid for many issues in the Gem column, including the 1883S at $38,000 and the 1893CC at $60,000. Significant activity is evident in the "other" Dollar charts - Ikes, Sackies, SBAs, Prezies, and ASEs - and a review is mandatory by those who participate in these areas.

PROOF SETS AND MINT SETS: Standing offers to buy Proof Sets and Mint Sets at anywhere from 5 to 10 percent back of Bid are routine. Persistent offers to sell select issues for below Bid will usually result in a minus sign. Advances are limited to the 1996S Prestige Set, the 1997S Premier Silver and the 2008S Clad Quarters in the Proof chart and the 1976S 3 piece within Mint Sets.

COMMEMORATIVES: Classic Silver Commems are telling a similar tale: wholesale buyers are available at published Bid, while quality examples sell in retail venues for less. A wake-up call is in order here. Gold Commems show a few declines with both the Round and Octagonal Pan-Pac slugs taking it on the chin after a recent retail auction. Overall, though, this market segment shows solid support, especially for higher grade examples.

TYPE: Mint State Type is good for a number of higher Bids, ten to be exact, with all ten items Bid under $2,000, perhaps a sign that the collector is back. More good news is that recent auction results confirmed Bid levels on an array of Proof Types, from mid four-figure Liberty Seated Quarters in PR64 and PR65 to five-figure items like Gobrecht Dollars in PR64, as well as Indian Head Cents and Two Cent pieces in the few hundred dollar range. New sight-unseen Bids have been recorded for Mint State Capped Bust Half Dollars graded by NGC, with the new NGC + grade designation receiving up to 14% higher Bids.

GOLD: Spot settles about $20 lower than last week, and adjustments for the most part are in line with that decline, for example, $20 Saints and Libs in grades MS62 through MS65. Interestingly, Gem $20 Saints in the new PCGS Secure Plus holders without the + designation are being offered for a discount in relation to the standard PCGS holder (non Secure Plus).

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen** (i.e., [illegible] or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be [illegible] which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay [illegible] when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

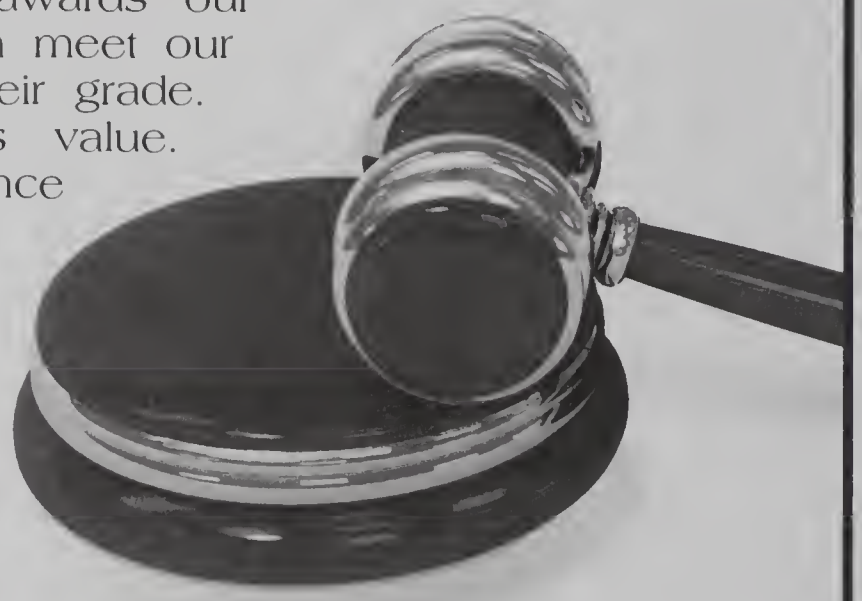
Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.



So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

Fox Business Network
"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

Jim Kingsland,
Editor

Coin Values, August 2008
"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

Mark Ferguson

The Coin Dealer Newsletter
"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

August 14, 2009

Ira and Larry Goldberg Auctioneers
"It is very simple, CAC coins bring premiums!"

Larry Goldberg

Stack's
"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. David Bowers,
Chairman

Bowers and Merena Auctions
"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

Steve Deeds,
President

Heritage Auction Galleries
"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

Todd Imhof,
Executive Vice President

DLRC Auctions
"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

John Feigenbaum,
President

PCGS FILES LAWSUIT
GOLDBERGS: $8 MILLION AND COUNTING

The Market in Depth

Heading into the Winter ANA, and for quite some time previously, PCGS teased the numismatic community saying they would make an announcement at the show. That announcement was suggestively referred to as the "Big One." It was touted as nothing short of a program, service, or group of services, collectively that was going to revolutionize the hobby. Their announcement described a new service called PCGS Secure Plus and a software technology capable of producing digital fingerprints of coins, which, in essence would identify each coin fingerprinted using this methodology. In a press release May 28, PCGS revealed they have a "coin recognition technology...used to detect foreign materials and other enhancements to a coin's surfaces." PCGS specifically notes that the technology, code-named "Coin Sniffer" can and will be used as an aid in the detection of counterfeits. Both PCGS and their parent company, Collectors Universe, Inc. have filed a suit in Federal court against several individuals, claiming they "engaged in a pattern of racketeering activity, breach of contract, conspiracy, unfair competition and fraud for allegedly submitting "doctored" coins to PCGS for grading on multiple occasions for a period of years." This activity includes moving metal with lasers to hide imperfections on rare Proof Gold coins, adding fake frost creating the Cameo and Deep Cameo effect, retooling devices and applying putty and other foreign substances to mask problems making the coin appear more valuable.

Ira and Larry Goldberg have already realized over $8 million from the sale dedicated to the Dan Holmes Collection of Middle Date Large Cents Part II and their Pre-Long Beach auction, held May 30 – May 31. A "super deluxe" edition of the Holmes catalog, proceeds of which will be donated to the ANA Young Numismatists Program, sold for $4,600. A few of the many highlights from the Goldberg's sales are listed below. Bonhams and Butterfields held an auction on May 30 in Los Angeles which included a 1795 $10 Capped Bust Eagle, 9 Leaf variety, described as Details of AU to Uncirculated, that realized $117,000.

The Long Beach Expo commences with dealer setup on June 2. Of course, dealers are already on site making deals in hotel rooms while waiting for the Expo to open and the official Heritage auction which runs June 4, 5 and 6. Something many participants will no doubt be interested in is the Cardinal Type Collection of Early Copper, a multi-million dollar display of over two dozen high-grade early American Copper coins, some of which come from an all-time finest PCGS Set Registry collection. In less than two weeks, the circuit faithful will touch down in Baltimore, MD for the event scheduled June 17-20. This Whitman sponsored event features two auctions - Bowers & Merena, the official auctioneer for the Baltimore show, is set to conduct a 3,500 lot sale of US coins. Stack's will also hold a sale in the same locale, June 15-16.

This Week's Market

CENTS THRU HALVES: Offers are present at Bid for every Mint State Kennedy Half Dollar roll issued from 1964 to the 2009D. Strong demand for Franklin Halves also exists for the majority of dates. The key date 1950D Jefferson Nickel rolls have slipped a bit, now Bid $320.

MERCURY DIMES: Not much to report this time around, except to note that while there are offers to buy many of the key dates in MS65FB like the '42/41D, many are lacking support, like the 1916D in MS65FB. This series remains one of the slowest activity wise of all segments.

WALKING LIBERTY HALVES: A few issues advance at the Gem level of preservation. Buyers exist for the short-set in grades MS63 and MS64 and becomes somewhat more sporadic at the MS65 tier. Earlier issues like the 1920D, '20S, '21 and '21D all are represented by offers to purchase at Bid in MS65. Issues from 1916 thru 1919S have fewer visible buyers placing Bids.

DOLLARS: Activity on the electronic dealer trading networks for lower grade material is almost frantic with dealers looking for extraordinarily large quantities of common date Circs sometimes offering to purchase up to 10,000 coins at Bid. On the other end of the spectrum, dealers are looking for DMPLs, and will pay Bid for any issue dated 1878 in MS63 in addition to select issues in higher grades. High grade Peace Dollars continue to heat up. This time it's generics in MS66, now Bid $580.

PROOF SETS AND MINT SETS: Both Premier Silver and Prestige Proof Sets dated 1995 and 1997 are needed in quantity at higher levels. Mint Sets remain steady, with an ongoing need for 1982-83 homemade sets to fill the Mint's void. Telemarketers and promoters are paying $35 and $40 respectively if packaged acceptably.

COMMEMORATIVES: Classic Silver Commems continue to have buyers present at current levels for the majority in grades MS65-MS66. The 1938-39 Oregon Trail PDS Sets are higher in MS63. One dealer has announced the sale of a complete 144 piece set grading PCGS MS65, all CAC approved. According to the current CAC pop report, no other such set could be built at this time. Gold Commems are telling a similar story as dealers are paying Bid on most issues grading MS64-MS66.

TYPE: Decent amount of support is present for Proof Type, from Flying Eagle Cents through Trade Dollars, offers are in place for PR63 to PR65 material. Noticeable gaps in that support exist only for the very early Proof coinage, namely Capped Bust Half Dimes, Dimes and Quarters and the incredibly rare Draped Bust Dollar.

GOLD: Gold has sprung back over $30 since our last report, in spite of the Long Beach curse. This is the 12th time Gold Spot has closed over the $1,200 mark ending the a.m. New York session since the beginning of the year, and only twice last year. Most numismatic and generic Gold Type are following suit as seen in the chart below.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a sight-seen raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to-Dealer transactions; you should expect to pay [illegible] when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVIII No. 24 June 11, 2010 *...a Friday morning report on the Coin Market*

LONG BEACH SHOW EXCEEDS EXPECTATIONS
GOLD HITS ALL-TIME HIGH

The Market in Depth

Prices realized at the official Long Beach sale of U.S. coins reached a hefty $9.86 million, bringing the total prices realized over an eight-day period in the greater LA area to more than $20 million. The 4,612-lot Heritage sale, consisting of two parts—a floor Bidding portion and an internet/fax/mail Bidding portion—witnessed a 93% sell-through rate for the floor sale of 2,154 lots and a 97% sell-through for the remaining 2,518 lots. Highlights are included herein. Dealers we spoke with in Long Beach reported that the show met or exceeded their expectations. Some expressed real surprise about the strength of the expo, and were very happy with the public attendance which seemed stronger than the past couple years. In fact, the line to get in on opening day strecthed over a block long. Dealers and collectors were desperately searching for fresh, solid-for-the-grade, original, problem-free material, and were particularly interested in the new PCGS and NGC Plus coins. Unfortunately, such material was difficult to find. The Plus coins are still very new, and in fact, this was the first show ever for NGC where Plus grading took place. To date, only 230 NGC coins have been awarded the Plus designation with nearly half of those in the Morgan, Peace, Lib and Saint series. As far as the quality issue goes, it's just been the same story: much of the most desirable material is still in very tight hands.

A great deal of discussion at the show centered on the lawsuit filed by PCGS and parent company Collectors Universe. The lawsuit alleges, in part, that six individuals participated in the practice of "coin doctoring" as part of an ongoing conspiracy to defraud PCGS. David Hall stated in a recent press release that, "We firmly believe coin doctoring to alter a coin's appearance is clearly illegal under the law...and certainly deceives grading services and future coin buyers." Related to these developments, PNG released an official statement dated June 3, wherein the Board of Directors "applauds the Professional Coin Grading Service in its efforts to battle the deceptive practice known as coin 'doctoring'." Additionally, "The PNG Board regrets that three of its member-dealers have been named among the defendants ..." Finally, the PNG press release acknowledges that there is a need to clearly define the term "doctoring" within the context of the PNG code of conduct. Mentioned at the show was the possibility that the individuals named in the suit will mount a joint defense.

Gold and Silver Spot are on the rise, an always-enjoyable item to report, given that rising Spot prices are nearly without exception a positive influence on multiple segments of the market. In fact, Gold hit a new, all-time high today, closing at $1,244 per ounce. The Baltimore, MD show is set to open to the public on Thursday, June 17. This event features two auctions. Bowers & Merena, the official auctioneer, is set to offer 3,500 lots of U.S. coins June 17-19. Stack's is holding a sale in the same locale, June 15-16.

This Week's Market

MERCURY DIMES: Some readers may find the oft repeated dealer sentiment that fresh, original coins are an easy sale somewhat unconvincing. Here, then, is an example: a 1916D graded MS65FB by PCGS brought $48,875 retail, while numerous examples offered recently have gone unsold. This sale prompted one market observer to comment: "It is the coin, not the market. More often than not when something goes unsold or sells for below Bid it is a reflection of the coin's quality, not the state of the market for that particular series or the market as a whole."

WALKING LIBERTY HALVES: Support remains strong with the short-set in MS63 and MS64 and the issues from 1919 to 1921. Recent auction result: 1919S PCGS MS63 sells for $9,200. Otherwise, this series is pretty calm at the sight-seen level.

DOLLARS: A fresh, original and problem-free 1892O MS65 DMPL Dollar graded by PCGS garnered $57,500 at auction. (It was a part of the touring grading set displayed by PCGS.) Four PCGS certified 1878S Dollars, one graded MS66+, two MS66 CAC and one an MS66, recently realized $1,553, $690, $1,150, and $1,380, respectively. Heritage is now paying $700 sight-unseen for any Morgan Dollar grading NGC MS67+.

PROOF SETS AND MINT SETS: This category is incredibly active with offers to buy swamping offers to sell. Most offers to buy are at Bid while the much fewer offers to sell are at Ask. Of the few offers to sell at closer to Bid, it is required that the buyer purchase the entire lot, usually running into hundreds of sets. Offers to buy are for large quantities, relatively speaking. A purchaser will take up to 10 sets of the 1996S Prestige Set, which moves up to $295. Dealers purchasing 1995 and 1997 Premier Sets are looking for up to 300 each. At least one dealer that is paying Bid for 1962 and 1963 Mint Sets will take up to 500 of each year. Bid on the 1940 Proof Set increases to $1,025; that same buyer will pay Bid for all other sets from 1936 to 1942.

COMMEMORATIVES: Classic Silver Commems continue to thrive on the sight-seen front, although, NGC CAC material continues to routinely sell for below Bid. Gold Commems remain strong in Choice and higher for nearly all issues including the $50 Pan-Pac slugs. Modern Gold Commems are higher across-the-board in response to the $50 leap in Spot since our last report.

TYPE: Increases on some Circulated Silver Type indicate the presence of the collector oriented material continuing to show strong demand. Higher-end Proof and Unc Type held up fairly well at recent auctions from our initial analysis.

GOLD: Spot has achieved yet another world record high, closing at $1,244. Select, rare date $20 Liberty Head issues undergo radical, positive revisions; among those issues targeted are the 1857S in AU58 through MS65. Better Eagles on the move include, the 1864S in XF40 and AU50, and the 1875 in like grade. A few Branch Mint Half Eagles have declined a bit as the result of discounted sales. Proof Gold American Eagles are now Bid $1,950 an ounce.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bid for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder. Bid will be strictly adhered to. Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay more when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVIII No. 25 June 18, 2010 *. . .a Friday morning report on the Coin Market*

DEMAND FOCUSED ON PQ COINS
BALTIMORE BONANZA BEGINS

The Market in Depth

A majority of dealers spent last weekend at one of the many local and regional shows held across the country prior to making their journey to Baltimore. Previewing material in the Bowers & Merena sale was first on their agenda followed by participation in the Stack's sale which is currently underway. Dealers are posting more Bids for "+" graded coins on the trading networks, though the number of such coins offered for sale remains limited. Stack's current sale of selections from the C.B. Slade Jr. collection does not include a single "+" designated coin amongst the 870 lots certified by PCGS/NGC, although two CAC lots are being offered. Bowers & Merena's official Baltimore auction includes 19 of the newly "+" graded coins from PCGS, while 69 coins offered in the PCGS Secure holder do not posses the coveted "+". The Bowers sale boasts 214 lots brandishing the iconic CAC green bean. As we await the trickle of "+" graded coins to enter the market, we reviewed transactions occurring recently for CAC approved coins. CAC stickered slabs are now traded in large numbers compared to a couple years ago. Analysis was limited to the series of Morgan Dollars and only for those coins where the Mint State grade correlates exactly with published *CDN* Bids herein. There was $126,213 worth of retail public auction transactions in the past week meeting the foregoing criteria. A total of 74 lots were recorded, equaling an average of $1,705 per coin. These auction prices realized amount to 24% over wholesale dealer-to-dealer Bids on average. We also looked at the $20 Saint-Gaudens series using the same time frame and grades through MS65 which resulted in a 15% increase over Bid per transaction on average. CAC coins do not presently have an established trading platform that supports Bids for coins so designated. This has prompted some dealers on the electronic networks to send out community wide broadcasts indicating that they will purchase CAC coins, sight-unseen at their sight-seen Bid levels. Relevant discussions of the differences that may exist with respect to the criteria employed by the three services (CAC, PCGS+, NGC+) will likely intensify as more examples are made.

We conclude on a familiar refrain and repeat this reminder, first because it is a very genuine and real threat. Secondly, due to the alarming frequency at which these activities continue to occur, to dispel the notion that these very upsetting acts only happen to the other guy. Theft and robberies - especially the type referred to as "smash and grab" wherein apparently a dealer (and his inventory) is followed upon leaving a show continues to be a real problem. The moment the dealer separates himself from his inventory, perpetrators break a car window, for example, grab the inventory and flee the scene. Furthermore, offerings of sandwich style Morgan Dollars and other counterfeits both encapsulated and raw have not discernibly lessened in frequency. If the coin does not seem right, act with your gut instinct and not with the potential score in mind.

Summer FUN is next on the national convention trail, scheduled for Jul 8-10 in Orlando, FL. Heritage will host a live public auction at the show July 8-10. PCGS is up next with another Members Only event to take place at the Venetian Hotel in Las Vegas July 21-24.

This Week's Market

CENTS THRU HALVES: Weakness is evident within State Quarter rolls especially the Philly issues. Select Lincoln Cent rolls are lower, though pockets of demand do exist, for example 1960D Small Dates are currently needed with a higher Bid recorded.

MERCURY DIMES: Support is once again present for many better date issues with completely revamped Bids particularly targeting the MS65FB column. Keep in mind that sight-seen Bids posted on the Certified Coin Exchange are equal to a binding, "no returns" sight-unseen offer for a "+" coin at that same grade level. This may be the shot in the arm necessary to jump-start this series.

WALKING LIBERTY HALVES: "It's all good" for the short-set in MS63 and MS64, but apart from the Bids for five of the six issues from the '20D to the '23S in Gem, this series still lags much of the rest of the market. A handful of advances adhere to a few later date Gems, namely the '41D, '45S and '46S.

DOLLARS: The low-end market for both Morgan and Peace Dollars remains intensely active as dealers look to fill orders. Some 200 Peace Dollars dated 1923 and 1924 in MS63 are needed at Bid. Numerous dealers are interested in slightly better date issues, for example, paying $95 for a BU 1878 8TF. Meanwhile generics in Gem drop a bit while select material in the mid three-figure range softens, in particular numerous CC issues.

PROOF SETS AND MINT SETS: Like lower-end Morgan Dollars, offers to buy at Bid or very near Bid for the vast majority of material here is the norm. Premier Silver Proof Sets in particular are hot and Bid continues to rise. The occasional offer to sell select Mint and Proof Sets below current levels will result in a lowering of Bid if there is not an explicit offer to buy. Most of the 2009 issued Sets will no longer be available from the Mint following this week.

COMMEMORATIVES: Ongoing visible Bids are the order of the day for the Classic Silvers in MS65 and MS66. "Biggies" that are targeted at Bid in both columns include the Lafayette Dollar, the Hawaiian, and the 1926 Sesquicentennial. Gold Commems are perhaps the story this week with nine of the 11-piece set advancing in MS65 as well as the $50 Pan-Pac Round Slug. MS66 graded material is nearly as strong with seven of the 11-piece set desired at new, higher levels.

TYPE: Encompassing as it does coins of every era, every metal composition, and every type of manufacture, when this segment is hot some might argue that the entire coin market is hot. Okay, perhaps we are not there, but Flying Eagle Cents and Twenty Cent Pieces along with Barber Dimes, Quarters and Half Dollars all advance in at least one Choice or better grade column. Favorite offer of the week: "160 Large Cents VF+ sold as a lot for $4,160."

GOLD: Much of the Gold Type listed below continues to fall, this in spite of a strong Gold Spot that remains near historic record highs. This numismatic Gold, albeit much is generic and readily available, is not given a second look from many of today's Gold bugs who would rather have the shiny new stuff. Dealers are now paying $2,000 an ounce for any Proof Gold American Eagle.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins sight-seen or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the terms at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for **sight-seen** coins may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The *CDN* may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions you should expect to pay a premium above. When purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" [illegible] often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, [illegible] "full bands" rolls are worth more than listed prices, particularly the pre 1941 issues. Washington rolls, dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XLVIII No. 26 June 25, 2010 *. . .a Friday morning report on the Coin Market*

B & M HAMMERS $6.34 MILLION
GOLD BREAKS RECORD HIGH—AGAIN

The Market in Depth

Gold Spot achieved yet another world-record high on Friday, Jun 18, settling at $1,257 per ounce. This is the third time in two weeks Gold has hit its highest highs. Silver Spot surged, ending that trading session at $19.18, a modest sign of strength when compared to the $20.69 level reached on March 5th of 2008. These strong precious metal prices created some excitement at the Baltimore show, yet numismatic Gold Type continues to be overlooked and under promoted. Buyers are continuing to target CAC and the newly graded Plus designated coins within this segment. At least one dealer reportedly walked the Baltimore bourse, reiterating an offer of $3,450 for these PQ $20 Saints graded MS66. Mission unaccomplished—as the dealer did not locate even one coin for purchase at this level. This ongoing sentiment of a lack of high-quality material available for purchase is widespread amongst dealers. Host auctioneer Bowers & Merena realized a total of $6.34 million from the U.S. coins portion of their Baltimore sale. A few of the many highlights are listed below.

An 1883O Morgan Dollar graded NGC MS63★ and exhibiting rainbow toning was offered on one of the many television shows selling collectable coins this past weekend. The show's host remarked matter-of-factly that coins similar to the one offered have sold for a thousand dollars and more. How similar? Turns out, we have recorded 145 retail transactions dating back to June 2007, specifically MS63 examples of the 1883O, further denoted as rainbow toned specimens. Prices paid by collectors ranged from as little as $40 to as much as $1,106.

ICTA is urging coin dealers across the country, whether members or not, to write their congress members for their support of the HR 5141 repeal of an upcoming 1099 reporting requirement which is included in the new health care bill. This 1099 law, which could go into effect in 2012, would require reporting all goods and services purchased over $600, including all purchases from customers, e.g. coins, bullion, paper money, etc., as well as rental cars, airline tickets, office supplies, utilities, and possibly wholesale purchases. In addition, a new financial reform bill is currently being discussed by the House and Senate. The Senate version of the bill requires the delivery of products sold within two days. This would make any transaction other than face-to-face a virtual impossibility, posing a major threat to business conducted by mail, phone and internet. ICTA has supplied a template on their website for those interested in sending a letter to their representatives.

Following Baltimore, many dealers will be attending local and regional shows, such as the new SoCal Coin and Currency Show at the Ontario Convention Center, June 24-26. Summer FUN is planned for July 8-10 in Orlando, Florida with an auction by Heritage.

This Week's Market

MERCURY DIMES: Two recent sales of the high profile 1916D, one a decent PCGS MS64FB example that sold for $19,550 and a monster PCGS MS66FB coin that brought $74,750 are encouraging signs of a return of life here.

WALKING LIBERTY HALVES: The reality here is quiet on the surface, but tricky when searching for particular items. If a collector comes looking for the 1916 in Choice for example, promising to locate one of acceptable quality may be a problem. When push comes to shove, coins in the $500 to $1,000 range are desirable and difficult to locate, and often take a fair amount of time to find.

DOLLARS: Too much support? CAC approved examples of select issues sometimes sell at Bid or below, though in all fairness, another example might go off at 2X Bid. One example is illustrated by the 1880O in MS64, that recently realized $1,608 and $3,220. Select Dollars are occasionally offered wholesale with price tags within 5 percent of Bid or lower. Cases in point are the 1887S and 1888S in Gem, and Carson Cities from the 1878CC to the 1885CC. Common date Circs have increased in grades VG to XF, likely the result of a higher Silver Spot.

PROOF SETS AND MINT SETS: Incredibly vibrant market segment; the winner is the one who can keep track of who needs what at what price and was that a Prestige or Premier Set that guy wanted in quantity 500? This week, in fact, it is the 1995 and 1997 Silver Premier Proof Set. Mint Sets remain strong with only the 2008 issue dropping a bit from a quantity being offered for less.

COMMEMORATIVES: Isabella Quarters and Lafayette Dollars enjoy support from MS64 to MS66 at published Bid. In fact, the entire run from the Isabella to York is pretty well supported with visible buyers. Gold Commems remain status quo, with no changes, yet Bidders remain in place for the majority herein. Common Modern Commem Silver Dollars are a tad higher this week, while common Gold issues are off just a bit.

TYPE: Mint State Barber coinage continues to increase. This week all three denominations have advanced. The high buyer here might be confessing that he isn't acquiring enough coins at the previous level. Bust Half Dollars, Large Eagle exhibit support in XF, AU and MS60. Copper Proof Type has Bidders present for pretty much everything grading PR64 and PR65.

GOLD: Market-makers have curtailed their Bids somewhat for generic material, even though Gold set a world record last Friday. Spot cooled off pretty quickly since setting its new record high, and the fluctuations below are pretty trivial. Proof Gold American Eagles are now receiving $2,025 an ounce.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight–seen**. The coins may be graded or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. These are the prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight–unseen** market which already include consideration of certification cost. Each **sight–seen** raw coin may be higher or lower than for a **sight–unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the High Bidder, but will be receptive to offers which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

BULLION: HOTTER THAN A FIRECRACKER
PNG TARGETS HOTEL GOLD BUYERS

The Market in Depth

Gold Spot looked poised to set yet another record on June 28 surpassing $1,262 in early morning trading before settling much lower and closing at $1,238. This on the heels of a $1,256 close in the prior session, a mere fraction of one percent below the record close of $1,257 exactly one week earlier. On the numismatic front, dealers reported making lump sales of Gold to investors, many of these sales topping six figures. At least one mom-and-pop coin shop reported receiving orders exceeding one million dollars last week. Two areas of the Gold market that dealers identified as "hot" are modern bullion coins, those struck since 1986 and appearing to be in perfect condition, and pre-1933 generics certified MS65 or higher and brandishing the CAC sticker and or "+" grade. Silver, which has topped the $20 mark on only a handful of occasions in the past two dozen years, closed at $19.18 last Friday, but like Gold has since retreated and is now trading at $18.59 an ounce.

The Professional Numismatist Guild (PNG) issued a recent press release and consumer advisory concerning traveling Gold buyers, a phenomenon that has exploded in prominence since Gold's latest run-up to unprecedented levels over the past five years. "Despite prominent advertising that may proclaim, 'NO ONE PAYS MORE,' some traveling gold buyers are offering only pennies on the dollar for rare coins," said Robert Brueggeman, PNG Executive Director. Further, one such hotel buyer offered $60 for a 1925D $2.50 Indian Head graded MS66 by NGC. The 1925D is a population 41 coin, therefore representative of the Type along with the 1908, the latter has a population of 59 in this grade. The *Certified Coin Dealer Newsletter - Bluesheet* sight-unseen Bid, which is the minimum a dealer will pay, for even the worst case example, is $8,500 for this coin. Recent retail auction results include an example selling for $9,775 in August 2009 and another example selling for $10,695 in March 2009. More recently a PCGS coin, same date, same grade realized $10,350 in March 2010. Dealers have reported various methods used to combat the traveling buyers who often place multiple full-page advertisements in the local newspapers just prior to and during their stay. Among the methods, dealers have taken out their own ads and distributed flyers on location that provide information on their offers to buy and the caveats inherent in selling to traveling buyers.

Following a rather brief July 4th holiday, the show circuit picks up again with the Summer FUN Show in Orlando, FL slated for July 8-11. Heritage is set to conduct a live floor sale on site. Two weeks later PCGS is set to host another members only affair, offering a 20% discount on grading submissions in Las Vegas at the Venetian Hotel July 21-24. David Hall will present a talk on July 22 entitled "Market Thoughts and Observations." These events will be followed by a round of vacationing for many dealers before the big ANA and multiple pre-shows in Boston this August.

This Week's Market

CENTS THRU HALVES: Buyers are paying 20% over face for any common date Unc Kennedy Half Dollar rolls. Higher Bids are being offered for Type 2 rolls of the '79S and '81S Halves at $330 and $275, respectively. 1950D Nickels remain active with buyers nearly always available for examples in any condition. State Quarters remain over-stocked.

MERCURY DIMES: We recorded the retail sale of $9,700 this past week for a 1942/41D graded MS64FB and unquestionably above average for the grade, against a wholesale Bid of $9,500. In the next grade of MS65FB Bid jumps to $22K.

WALKING LIBERTY HALVES: A rather quiet week with only a few minor changes occurring. Most of the underlying Bidder support remains intact.

DOLLARS: Sales of high quality Morgan Dollars, especially Carson City issues, are routinely taking place at Bid and sometimes even below Bid. This segment may appear liquid, though unhealthy from lack of real spreads. Eventually, some Bid revisions here are likely. Select Ike Dollars boast plus signs; maybe the opportunity that sellers have been awaiting to unload inventory. Since those placing the new, higher Bids undoubtedly have a market for the coins – this is a "win-win" scenario. Ever popular, the 1921 Peace Dollar forges ahead in Gem to $1,700.

PROOF SETS AND MINT SETS: A teletype message of Jun 26, offering Proof Sets issued 1970 to 2003 in quantities of 10 to 20 per year, was 50% sold by Jun 28. American Legacy Sets are showing signs of weakening demand; offers to sell are more prevalent than offers to buy. Many dealers continue to offer Sets at Bid, often not realizing Bid is already below melt or near face.

COMMEMORATIVES: Classic Silver issues continue to enjoy wide ranging support in MS65 and MS66, not to mention a significant number of advances. The 1926 Sesquicentennial, which commemorates the 150th Anniversary of the signing of the Declaration of Independence, an issue stunningly scarce in MS66 with a combined population of 21, and quite appropriately garnering recognition heading into Independence Day, is now Bid $20K. Every issue within the 11-piece Gold Commem Set is in positive territory in MS64. Additionally, there are many advances present in MS63, MS65 and MS66.

TYPE: Liberty Seated Quarters with Arrows, 1873-74, dominated by the 1874S as the representative Type coin, a coin that typically shows up Brilliant Uncirculated (untoned) and "nice", falters in MS64 to $1,400. Circulated Type, which dealers have reported as an easy sell of late, remains active with transactions taking place within Bid and Ask. 1795 Flowing Hair Dollars in VG are currently needed at Bid. Proof Type is also strong with buyers present for most issues through PR65.

GOLD: "Due to a sudden increase in business from many new customers we can not handle all the calls during the day ..." began a message run on the wire recently. That pretty much sums up the market for modern bullion like the American Eagle series. Ordinary generic numismatic material, however, is floundering in the absence of a CAC sticker or the + sign, both are symbols indicating quality.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The [illegible] or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not [illegible] at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of [illegible] costs. But for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the [illegible] but will be [illegible] which are higher or lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions you should expect to pay a [illegible] when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series [illegible] "bands" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. [illegible] Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

GOLD FALLS AS F.U.N. BEGINS
PATIENCE REQUIRED FOR POSITIVE IMPACT

The Market in Depth

The numismatic show circuit is in full swing again. Orlando is the destination and many dealers are undoubtedly participating in some type of makeshift pre-show bourse or perhaps on a slightly smaller scale in the confines of hotel rooms. Gold Spot's volatility – a $40 decline from one day to the next – has likely induced caution among some dealers. In many instances, there may be a need to reevaluate their acquisition strategy on the bourse of the FUN show. Last week, the plan heading into Orlando for some was to buy as much Gold as possible, while others hoping for the same scenario though participating on the sellers side of the aisle. Certainly, precious metals remain a central focus, albeit a modified mindset if Gold continues to display increased volatility. Gold is now trading below the $1,200 mark at $1,195 an ounce.

In March of this year, we reported a number of product launches and services. More recently various hobby entities, in particular the two major grading services, the PNG, and ICTA, have all made strides to make the hobby, figuratively speaking, a "better and fairer place" for everyone. Like many such initiatives, patience is of the essence. Experience has shown all of us that it takes time until such changes show a salutary effect on the entire community. Certified coins holdered with a "+" grade have yet to dramatically affect the market as some are predicting. The number of coins currently in play is limited. In many instances, the first coins sent in for review are precisely the coins that those in possession do not intend to sell anytime soon. Coin doctoring – hitherto the white elephant of numismatics – prompted PCGS to initiate a lawsuit, naming names and discussing particular coins alleging the "doctors'" handiwork. Many believe that the mere existence of this lawsuit may already have influenced the hobby for the better.

Scotsman is set to take the gavel next, following the FUN show and auction by Heritage. Their Midwest Summer Sale is scheduled for July 23 in Saint Charles, MO. The 1,242 lots of U.S. Coins and Paper Money include a good deal of collector fare and additionally a solid selection of five figure items. A few of the many highlights are included herein. Wow, it is time to mention the ANA's Worlds Fair of Money, including numerous exhibits, seminars and presentations that will take place Aug 10-14 in Boston, MA. Bob Simpson will display a complete seven-coin set of Bickford Patterns. An example of the 1874 $10 Bickford, one of two known, sold for $1.265 million earlier this year. One of the two known 1861 $20 Libs with Paquet Reverse and 1921 Roman Finish $20 Saint-Gaudens will also be on display along with Boston-related early Americana.

This Week's Market

MERCURY DIMES: Visibly unchanged in the Unc grades, nevertheless numerous retail transactions in the past month reveal that Bid is usually exceeded. Increasing one's Bid on select issues may pick off the many coins that instead wind up in online auctions. In some instances, there are undoubtedly coins from a dealer's inventory that might have sold dealer-to-dealer, a win-win situation when the time and incidentals are factored in.

WALKING LIBERTY HALVES: Circ material remains status-quo in grades of G to AU. The short-set, as always, is showing strong support in MS63 and MS64. Only one increase to report in Gem, the 1941S climbs to a higher Bid of $770. Proof Singles continue to trade within Bid and Ask for the most part.

DOLLARS: Minor adjustments, all in a northerly direction, have been recorded for a few Carson City issues. These cartwheels are currently available in the marketplace and numerous transactions where solid coins have sold for below Bid can be easily identified. Circ 1921 Morgans, are now wanted at $17.85 with holed, dateless, damaged and slicks being rejected. This particular buyer is limiting the entire purchase to 100 coins — not the type of quantity required to move the entire market. Bid will remain unchanged here. At least one marketmaker in Peace Dollars is currently looking for common dates in PCGS MS67 and many of the scarcest dates in PCGS MS66.

PROOF SETS AND MINT SETS: Large quantity offerings of 1999S Silver Proof Sets for reduced levels has resulted in the lowering of Bid, now $160. Premiere Silver Proof Sets are still under siege and Bid has advanced again for 1995 and 1997 sets. Mint Sets are stable with a number of buyers available at or near Bid for most issues.

COMMEMORATIVES: At least one dealer wants one of the eight 1926 Sesquicentennials pretty badly jumping Bid to $25,000 from $20,000 in MS66. A handful of other adjustments, all of them rather trivial, reflecting more accurately the actual Ask prices on coins offered this past week. Gold Commems are at it again by way of another wave of increases. Modern Gold Commems are down in response to Spot's $45 descent from the last time we visited this segment. Five ounce bullion versions of the National Park Quarters will reportedly be making their debut thru authorized distributors sometime this month.

TYPE: Proof Type, more than any other area of the market, shows decidedly mixed results. Dealers are Bidding for nearly everything in all four grade columns, especially within the Silver issues. Mint State Type is also mixed, reflecting a thorough review of recent trades relevant to this area.

GOLD: Gold Type is decidedly mixed with a downside bias as dealers re-evaluate their positions following last week's fallout to Gold Spot. Recent volatility has not showed any signs of abatement in at least three sessions. A side-by-side with the July 2 installment of the newsletter reveals that many if not most of the advances adhering to Double Eagles last week were reversed this week. Proof American Gold Eagles are off a tad in all denominations, now Bid $1,980 an ounce.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the market at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be changed when Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium over Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

Fox Business Network

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

Jim Kingsland,
Editor

Coin Values, August 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

Mark Ferguson

The Coin Dealer Newsletter

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

August 14, 2009

Ira and Larry Goldberg Auctioneers

"It is very simple, CAC coins bring premiums!"

Larry Goldberg

Stack's

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. David Bowers,
Chairman

Bowers and Merena Auctions

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

Steve Deeds,
President

Heritage Auction Galleries

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

Todd Imhof,
Executive Vice President

DLRC Auctions

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

John Feigenbaum,
President

$7.4 MILLION CAPTURED IN FLORIDA
GREAT COINS ARE HOT

The Market in Depth

Summer FUN is now history with rather mixed experiences being reported from those who attended. For many, this show was like Night and Day when compared to the Winter show held each January. One dealership reported that they had their most successful trip to Florida of all time. Having a good show comes down to one's own objectives, whether that is on the buying or selling side is irrelevant. An official public auction by Heritage that was held at the convention site in conjunction with the show tallied over $7.4 million. An 1867 Shield Nickel with Rays graded PR65 Cameo by NGC realized $57,500 taking top honors at the sale. This particular piece represents a **great** coin, a text book example of what is hot in the current market. This is a classic rarity, and yet this example boasts even further importance. Research concludes the small mintage of Proofs is further distinguished according to the dies used to strike them. Dealers have stated for a while now that current buyers respond very favorably to such material and that these buyers exist across the entire market from the guy spending $250 a coin to buyers paying up to $250,000. Auction results are easily found to support the notion that collectors at both ends of the spectrum are out there in growing numbers, actively participating in the hobby. Demand continues to far outweigh supplies of attractive, problem-free material that also has some rarity or a neat story. To cite some recent stunning examples, an 1842O Small Date Liberty Seated Quarter raged to $4,213 against a Bid of $1,500 in VF20 and $2,200 in XF40. This NGC VF25 displayed album toning rarely seen on New Orleans Quarters and a rare variety tossed into the mix. An 1819/8 Capped Bust Half, PCGS MS63 fetched $5,750 against Bid of $2,450. More of the many Heritage auction highlights are included herein.

It has been reported that at least 13 individuals have been identified by the secret service as being involved in the "sandwich" counterfeits coming out of Northern California. Up until now it has been primarily Morgan Dollars that have been split and combined to make a rare date and mintmark combination. The latest incident involves a 1945 Mercury Dime residing in a fraudulent PCGS holder claiming an MS65FB grade. This coin has one of the lowest PCGS pops for a Gem Fully Split Band Merc, currently at 34.

Many dealers will be taking a much needed vacation following the PCGS event in Vegas and the July 23 sale being held by Scotsman in St. Charles, Missouri. Thereafter the action will pick-up pretty quickly with a pair of pre-shows being held in Boston along with a Bowers and Merena sale on Aug 7. The big ANA World's Fair of Money show is set for Aug 10-14, with three live multi-session auctions by Heritage.

This Week's Market

CENTS THRU HALVES: Mint State Franklins are targeted at higher levels for rolls dated 1961. Most other bullion related issues back pedal from a lower Silver Spot. Lincoln Cent Rolls enter the market in droves at reduced levels resulting in minus signs.

MERCURY DIMES: Decent demand persists for MS64FB fare including the famed over date 1942/41. Some dealers see strong opportunities rather than a lack of material. Today's collectors digest huge amounts of information from the internet, fueling an enthusiasm to locate coins perfectly satisfying their desires.

WALKING LIBERTY HALVES: The short-set in MS63 and MS64 reflects solid dealer interest. Auctions, large and small, come and go with little in the way of negative activity sticking to this series. The presence of some extremely high end coins, however, that have lingered in the market place, one month offered at retail followed by an auction appearance where it goes unsold may be somewhat unsettling.

DOLLARS: Quality applies equally well to the common dates as it does to the better dates and the truly rare. Keep in mind of course that blast white may not exist for some issues at the higher grade levels. Here again is where sellers have to earn their keep by staying current with today's, knowledgeable collectors. Old school rainbow toning brings money based upon each coins individual merit, but almost always a strong premium to Bid. Some see opportunity here by shrewdly working buying and selling venues very differently. Peace Dollars in grades VG, F, VF, XF and AU50 have at least one dealer who will take a quantity for VG Bid to a hair more.

PROOF SETS AND MINT SETS: That same dealer, who week after week has pushed Bid higher in an effort to acquire 1995 and 1997 Premier Silver Proof Sets, is doing it again. He warns though that the standing order from his client may fill presenting the implication that he may not pay these levels for much longer. Mint Sets remain stable for the most part.

COMMEMORATIVES: Many designs trudge higher in grades up to MS66. The Hawaiian Sesquicentennial continues its reign as the MS66 Bid king, now at $27,500. This has pushed Bid into the six figure range for the 50 piece Type set. Markets are still being made within the Classic Gold Commem series at current levels.

TYPE: Proof Type remains super strong in grades 63 to 65. Specific issues targeted at Bid include: Indian Head Cents, Liberty Seated Dollars, both, With and Without Motto, and Liberty Nickels with Cents. The latter, strides upward in Gem to $475 and is oftentimes one of the issues first embraced by blossoming Proof Type collectors. Each of the three Barber denoms, sour as Liberty's expression might appear to some, gleefully presses to new, higher levels in MS63-MS65. These have really taken off since mid April, by way of multiple active buyers.

GOLD: Type Gold continues to undergo tweaks, some major while most are minor and relative to Gold Spot. Major moves are seen this week for Circulated Half Eagles as supplies dwindle, pressing the need for inventory replenishment. With Motto $5 Libs are leading the way here, some 10 percent higher across-the-board from last week.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the Bid/Ask at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and 'gem' rolls [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark. These bring lower prices, 'gem, full steps' rolls (when available) bring higher prices. In the Mercury series, 'gem, full bands' rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls [illegible] rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

Single copy price $4.00 Vol. XLVIII No. 26 June 25, 2010 *. . .a Friday morning report on the Coin Market*

B & M HAMMERS $6.34 MILLION
GOLD BREAKS RECORD HIGH—AGAIN

The Market in Depth

Gold Spot achieved yet another world-record high on Friday, Jun 18, settling at $1,257 per ounce. This is the third time in two weeks Gold has hit its highest highs. Silver Spot surged, ending that trading session at $19.18, a modest sign of strength when compared to the $20.69 level reached on March 5th of 2008. These strong precious metal prices created some excitement at the Baltimore show, yet numismatic Gold Type continues to be overlooked and under promoted. Buyers are continuing to target CAC and the newly graded Plus designated coins within this segment. At least one dealer reportedly walked the Baltimore bourse, reiterating an offer of $3,450 for these PQ $20 Saints graded MS66. Mission unaccomplished—as the dealer did not locate even one coin for purchase at this level. This ongoing sentiment of a lack of high-quality material available for purchase is widespread amongst dealers. Host auctioneer Bowers & Merena realized a total of $6.34 million from the U.S. coins portion of their Baltimore sale. A few of the many highlights are listed below.

An 1883O Morgan Dollar graded NGC MS63★ and exhibiting rainbow toning was offered on one of the many television shows selling collectable coins this past weekend. The show's host remarked matter-of-factly that coins similar to the one offered have sold for a thousand dollars and more. How similar? Turns out, we have recorded 145 retail transactions dating back to June 2007, specifically MS63 examples of the 1883O, further denoted as rainbow toned specimens. Prices paid by collectors ranged from as little as $40 to as much as $1,106.

ICTA is urging coin dealers across the country, whether members or not, to write their congress members for their support of the HR 5141 repeal of an upcoming 1099 reporting requirement which is included in the new health care bill. This 1099 law, which could go into effect in 2012, would require reporting all goods and services purchased over $600, including all purchases from customers, e.g. coins, bullion, paper money, etc., as well as rental cars, airline tickets, office supplies, utilities, and possibly wholesale purchases. In addition, a new financial reform bill is currently being discussed by the House and Senate. The Senate version of the bill requires the delivery of products sold within two days. This would make any transaction other than face-to-face a virtual impossibility, posing a major threat to business conducted by mail, phone and internet. ICTA has supplied a template on their website for those interested in sending a letter to their representatives.

Following Baltimore, many dealers will be attending local and regional shows, such as the new SoCal Coin and Currency Show at the Ontario Convention Center, June 24-26. Summer FUN is planned for July 8-10 in Orlando, Florida with an auction by Heritage.

This Week's Market

MERCURY DIMES: Two recent sales of the high profile 1916D, one a decent PCGS MS64FB example that sold for $19,550 and a monster PCGS MS66FB coin that brought $74,750 are encouraging signs of a return of life here.

WALKING LIBERTY HALVES: The reality here is quiet on the surface, but tricky when searching for particular items. If a collector comes looking for the 1916 in Choice for example, promising to locate one of acceptable quality may be a problem. When push comes to shove, coins in the $500 to $1,000 range are desirable and difficult to locate, and often take a fair amount of time to find.

DOLLARS: Too much support? CAC approved examples of select issues sometimes sell at Bid or below, though in all fairness, another example might go off at 2X Bid. One example is illustrated by the 1880O in MS64, that recently realized $1,608 and $3,220. Select Dollars are occasionally offered wholesale with price tags within 5 percent of Bid or lower. Cases in point are the 1887S and 1888S in Gem, and Carson Cities from the 1878CC to the 1885CC. Common date Circs have increased in grades VG to XF, likely the result of a higher Silver Spot.

PROOF SETS AND MINT SETS: Incredibly vibrant market segment; the winner is the one who can keep track of who needs what at what price and was that a Prestige or Premier Set that guy wanted in quantity 500? This week, in fact, it is the 1995 and 1997 Silver Premier Proof Set. Mint Sets remain strong with only the 2008 issue dropping a bit from a quantity being offered for less.

COMMEMORATIVES: Isabella Quarters and Lafayette Dollars enjoy support from MS64 to MS66 at published Bid. In fact, the entire run from the Isabella to York is pretty well supported with visible buyers. Gold Commems remain status quo, with no changes, yet Bidders remain in place for the majority herein. Common Modern Commem Silver Dollars are a tad higher this week, while common Gold issues are off just a bit.

TYPE: Mint State Barber coinage continues to increase. This week all three denominations have advanced. The high buyer here might be confessing that he isn't acquiring enough coins at the previous level. Bust Half Dollars, Large Eagle exhibit support in XF, AU and MS60. Copper Proof Type has Bidders present for pretty much everything grading PR64 and PR65.

GOLD: Market-makers have curtailed their Bids somewhat for generic material, even though Gold set a world record last Friday. Spot cooled off pretty quickly since setting its new record high, and the fluctuations below are pretty trivial. Proof Gold American Eagles are now receiving $2,025 an ounce.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be changed by lower bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

BULLION: HOTTER THAN A FIRECRACKER
PNG TARGETS HOTEL GOLD BUYERS

The Market in Depth

Gold Spot looked poised to set yet another record on June 28 surpassing $1,262 in early morning trading before settling much lower and closing at $1,238. This on the heels of a $1,256 close in the prior session, a mere fraction of one percent below the record close of $1,257 exactly one week earlier. On the numismatic front, dealers reported making lump sales of Gold to investors, many of these sales topping six figures. At least one mom-and-pop coin shop reported receiving orders exceeding one million dollars last week. Two areas of the Gold market that dealers identified as "hot" are modern bullion coins, those struck since 1986 and appearing to be in perfect condition, and pre-1933 generics certified MS65 or higher and brandishing the CAC sticker and or "+" grade. Silver, which has topped the $20 mark on only a handful of occasions in the past two dozen years, closed at $19.18 last Friday, but like Gold has since retreated and is now trading at $18.59 an ounce.

The Professional Numismatist Guild (PNG) issued a recent press release and consumer advisory concerning traveling Gold buyers, a phenomenon that has exploded in prominence since Gold's latest run-up to unprecedented levels over the past five years. "Despite prominent advertising that may proclaim, 'NO ONE PAYS MORE,' some traveling gold buyers are offering only pennies on the dollar for rare coins," said Robert Brueggeman, PNG Executive Director. Further, one such hotel buyer offered $60 for a 1925D $2.50 Indian Head graded MS66 by NGC. The 1925D is a population 41 coin, therefore representative of the Type along with the 1908, the latter has a population of 59 in this grade. The *Certified Coin Dealer Newsletter - Bluesheet* sight-unseen Bid, which is the minimum a dealer will pay, for even the worst case example, is $8,500 for this coin. Recent retail auction results include an example selling for $9,775 in August 2009 and another example selling for $10,695 in March 2009. More recently a PCGS coin, same date, same grade realized $10,350 in March 2010. Dealers have reported various methods used to combat the traveling buyers who often place multiple full-page advertisements in the local newspapers just prior to and during their stay. Among the methods, dealers have taken out their own ads and distributed flyers on location that provide information on their offers to buy and the caveats inherent in selling to traveling buyers.

Following a rather brief July 4th holiday, the show circuit picks up again with the Summer FUN Show in Orlando, FL slated for July 8-11. Heritage is set to conduct a live floor sale on site. Two weeks later PCGS is set to host another members only affair, offering a 20% discount on grading submissions in Las Vegas at the Venetian Hotel July 21-24. David Hall will present a talk on July 22 entitled "Market Thoughts and Observations." These events will be followed by a round of vacationing for many dealers before the big ANA and multiple pre-shows in Boston this August.

This Week's Market

CENTS THRU HALVES: Buyers are paying 20% over face for any common date Unc Kennedy Half Dollar rolls. Higher Bids are being offered for Type 2 rolls of the '79S and '81S Halves at $330 and $275, respectively. 1950D Nickels remain active with buyers nearly always available for examples in any condition. State Quarters remain over-stocked.

MERCURY DIMES: We recorded the retail sale of $9,700 this past week for a 1942/41D graded MS64FB and unquestionably above average for the grade, against a wholesale Bid of $9,500. In the next grade of MS65FB Bid jumps to $22K.

WALKING LIBERTY HALVES: A rather quiet week with only a few minor changes occurring. Most of the underlying Bidder support remains intact.

DOLLARS: Sales of high quality Morgan Dollars, especially Carson City issues, are routinely taking place at Bid and sometimes even below Bid. This segment may appear liquid, though unhealthy from lack of real spreads. Eventually, some Bid revisions here are likely. Select Ike Dollars boast plus signs; maybe the opportunity that sellers have been awaiting to unload inventory. Since those placing the new, higher Bids undoubtedly have a market for the coins – this is a "win-win" scenario. Ever popular, the 1921 Peace Dollar forges ahead in Gem to $1,700.

PROOF SETS AND MINT SETS: A teletype message of Jun 26, offering Proof Sets issued 1970 to 2003 in quantities of 10 to 20 per year, was 50% sold by Jun 28. American Legacy Sets are showing signs of weakening demand; offers to sell are more prevalent than offers to buy. Many dealers continue to offer Sets at Bid, often not realizing Bid is already below melt or near face.

COMMEMORATIVES: Classic Silver issues continue to enjoy wide ranging support in MS65 and MS66, not to mention a significant number of advances. The 1926 Sesquicentennial, which commemorates the 150th Anniversary of the signing of the Declaration of Independence, an issue stunningly scarce in MS66 with a combined population of 21, and quite appropriately garnering recognition heading into Independence Day, is now Bid $20K. Every issue within the 11-piece Gold Commem Set is in positive territory in MS64. Additionally, there are many advances present in MS63, MS65 and MS66.

TYPE: Liberty Seated Quarters with Arrows, 1873-74, dominated by the 1874S as the representative Type coin, a coin that typically shows up Brilliant Uncirculated (untoned) and "nice", falters in MS64 to $1,400. Circulated Type, which dealers have reported as an easy sell of late, remains active with transactions taking place within Bid and Ask. 1795 Flowing Hair Dollars in VG are currently needed at Bid. Proof Type is also strong with buyers present for most issues through PR65.

GOLD: "Due to a sudden increase in business from many new customers we can not handle all the calls during the day ..." began a message run on the wire recently. That pretty much sums up the market for modern bullion like the American Eagle series. Ordinary generic numismatic material, however, is floundering in the absence of a CAC sticker or the + sign, both are symbols indicating quality.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen** [illegible] or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not [illegible] at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification cost. [illegible] **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be [illegible] which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium over [illegible] when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring [illegible]. In the Jefferson series, some of the rolls in the late 50's tend to be dark — these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices particularly the pre-1941 issues. Washington rolls, dull or "put together" bring lower prices. Gem [illegible] Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN
